

About Coptic Presentations

Contributed by Coptic Presentations
Last Updated Wednesday, 23 April 2008

Coptic Presentations is a software package which bundles together all the text of the services of the Coptic Orthodox Church. It was initiated and founded in 2000 by a small group of dedicated youth from St. George & St. Shenouda Coptic Orthodox Church in Jersey City, NJ under the direction of Hegomen Fr. David Bebawy. They are dedicated to providing the PowerPoint presentations for all our Coptic Orthodox Church services on the computer for free. With many years of hard work and dedication we happily invite all to use this software for the glory of God.
